

MAYNE PHARMA ANNOUNCES STRATEGIC PARTNERSHIP WITH NOVAST

6 July 2020, Adelaide Australia: Mayne Pharma Group Limited (ASX: MYX) is pleased to announce it has entered into a long-term supply agreement with Novast Laboratories Limited for thirteen US generic oral contraceptive products, including five new products not previously marketed by the Company.

Four of the additional products are FDA approved and include generic equivalents of two of the highest prescribed oral contraceptive products in the US – ORTHO CYCLEN® and ORTHO TRI-CYCLEN® - as well as LOESTRIN® 24 FE and DESOGEN®. The fifth product is pending at the FDA. According to IQVIA, the annual US market sales for the five additional products were US\$500m with more than 1.3 billion tablets sold annually¹.

Mayne Pharma's CEO Scott Richards said, "We are very pleased to have partnered with Novast, who have an outstanding quality track record manufacturing and supplying oral contraceptives to the US market. This transaction expands our women's health portfolio and secures supply on more favourable terms of eight products previously acquired from Teva Pharmaceuticals to continue to drive growth of our women's health franchise."

"Our key priorities in women's health have been to optimise our supply network to improve product costs, add complementary novel and generic products, expand our channels to market and establish a national sales team in the US to promote to physicians. Mayne Pharma's women's health portfolio today includes 27 marketed and pipeline products, including a novel oral contraceptive E4/DRSP and two generic contraceptive products targeting markets with sales of US\$1.2 billion and targeted to launch in FY21. Mayne Pharma is a leading supplier of contraceptives in the US with its portfolio now covering more than 85% of oral contraceptive prescription volumes¹."
